2019 NOVEL CORONAVIRUS (2019-nCoV)

An estimated 80% of ALL infections are transmitted by hands
CDC, 2014*

Hand washing can reduce the risk of respiratory infections by 21%
NIH, 2008*

97% of people don’t wash their hands adequately
USDA, 2018*

Wash hands frequently with soap and water or use alcohol-based hand sanitizer.
WHO, 2020*

Avoid close contact with anyone with cold or flu-like symptoms.
WHO, 2020*

Consult with local health authorities on all necessary procedures and up-to-date information.

Reduce your risk of coronavirus infection:

- Clean hands with soap and water or alcohol-based hand rub
- Cover nose and mouth when coughing and sneezing with tissue or flexed elbow
- Avoid close contact with anyone with cold or flu-like symptoms
- Thoroughly cook meat and eggs
- No unprotected contact with live wild or farm animals

MINIMIZE THE RISK

- Follow all public health recommendations and guidelines
- Wash hands frequently with soap and water
- Use an alcohol-based hand rub
- Clean and disinfect surfaces and high-touch objects with approved disinfectants
- Ensure availability and proper training of personal protective equipment (PPE)
- Minimize close contact with persons who have symptoms of respiratory illness
